

brown to black

blue to white

yellow green is ground (if applicable)

Crossbar ①

Mounting screws ②

③ Wire nuts

④ Back plate

Installation:

1. Remove old fixture
2. Mount via mounting screws
3. Attach wires (refer to above color pairings)
4. Attach fixture to the cross bar via 2 screws.

To Adjust Strings:

1. To shorten the distance between the light and the LED driver box, just push the string into the LED drive box.
2. To extend the string length, push the inner cylinder and pull on the string slowly (as pictured)
